*Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-21, 31-40, 50-52, drawn to information, represented in form of absolute coordinates and is based on use of position-coding patterns, classified in class 345, subclass 156 and in class 178, subclass 18.01.
  - II. Claims 22-30, 41-49, drawn to database management system to access database containing knowledge, classified in class 706, subclass 48.
2. Inventions of group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group I has separate utility such as using stylus separately from Group II, which is connected to database management system. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
